

Roei Michael

Data Engineer & Machine Learning Developer

+972-54-7304570

Petah Tikva, Israel

roeym111@gmail.com

Data Engineer and Machine Learning Developer with a proven record of building high-performance **backend architectures**, **automated data pipelines**, and **personal agent systems**.

Specialized in LLM technologies, RAG pipelines, and financial/portfolio optimization. Currently completing an M.Sc. in Data Engineering, with core research in **deep learning optimization under constraints**.

EXPERIENCE

Lead AI Developer | Expose Global 2026 – today

- **Exi AI Agent:** Deployed a multimodal agent system orchestrating automated user assistance, target audience analysis and social analytics pipelines.
- **Data Pipelines:** Built automated scraping and ingestion pipelines to handle daily trend harvesting and weekly analytics syncing across multiple platforms.
- **RAG Engine:** Implemented a vector pipeline utilizing Google embeddings, dual-stage chunking with tagging, and a custom relevance-based caching mechanism to minimize database overhead.

Software Developer | Israeli Navy (IDF) 2023 – 2026

- Developed **backend architecture** for operational mapping systems involving hundreds of Navy users.
- Reduced data retrieval time by 20% through **architecture optimization**.

Quant Developer | Odysseus Hedge Fund 2021-2023

- Developed an **automated trading engine** for the fund's trading model, in charge of a large portion of portfolios position allocation.
- Worked on high-performance algorithm to **calculate correlation and cointegration** across stock pairs for **hedging strategies**.

EDUCATION

M.Sc. in Data Engineering / Bar-Ilan University 2024 - Present

- **Thesis:** Neural network optimization with multi-constraint learning on stocks market data.
- **Focus:** Deep Learning, Optimization Theory, Multimodal Neural Networks.
- **GPA:** 96

B.Sc. in Computer Engineering / Bar-Ilan University 2019 - 2023

- **GPA:** 91, Graduated with Honors.
- **"100's Club" Scholarship** awarded twice for academic excellence during my degree.

LANGUAGES

Hebrew – Native speaker. English – Fluent.

PERSONAL SKILLS

- ❖ Quick learner
- ❖ Great communication skills
- ❖ Excellent leadership and mentoring skills
- ❖ Curious and motivated to grow
- ❖ Creative

TECHNICAL SKILLS

- ❖ Python (Expert)
- ❖ PyTorch & Deep Learning
- ❖ Multi-Agent Systems
- ❖ RAG & Vector Embeddings
- ❖ Computer Vision Pipelines
- ❖ Pandas, NumPy & SciPy
- ❖ Time Series Analysis
- ❖ Data Ingestion Pipelines
- ❖ CUDA
- ❖ Multiprocessing & Multithreading
- ❖ Docker & Jenkins
- ❖ Supabase, Railway & Vercel
